DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 and 23-44 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a machine vision system oriented to view the support element and an object under fabrication, the machine vision system including a field of vision which is at least substantially coextensive with a field of exposure of the selective material consolidation system nor does the prior art disclose a camera configured to view a portion of the field of exposure and carried by the scan element, the scan element being configured to move the camera to a plurality of locations over the field of exposure. The allowability, at least in part, resides in these facts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
